## CORNELL NOTE-TAKING STYLE

### PURPOSE

This method can be used by students to condense and organise important notes.

The method also involves a requirement to cover and recall key notes which helps strengthen understanding and faster recall of information.

### QUICK TIP

Reproduce the structure on an A4 piece of paper. Then try to condense the notes onto that page only. You will have lots of information to take in. It's important to focus on the key information and not just copy everything out.
